(List the activity that occurred; mark the number corresponding to the particular activity that took place (e.g., 3 for third contact); and indicate the name of the person responsible for conducting the activity.

- Note that an institution may not visit a prospect's educational institution more than once during a particular week during a contact period, regardless of the number of prospect's enrolled at that institution.
- Any visit to the prospect's campus during a contact period counts as a contact for all prospects at that school.
- Football is one evaluation during the fall evaluation period, and two evaluations during the spring. One of the spring evaluations must have an academic component.
