

ALL-TIME LETTERWINNERS

Various standards have been used to determine USC letterwinners over the years, but since 1976, squad members who have played at least 30 minutes have been listed here as lettermen. There have been many exceptions to that rule, including kickers and others who contributed significantly to the team's success without playing 30 minutes.

In addition, senior squad members who have been on the team for several years have generally been awarded letters for their senior season, as long as they appeared in at least one game. This has been a long-standing policy.

The list is confined to lettermen who actually played on USC's varsity teams of American Rules Football, and does not include individuals who lettered only in rugby.

Positions, heights, and weights are generally those listed in USC publications and other sources in the player's final letterwinning year. Positions are primarily listed in the terminology of the era in which the letterwinner played. "Hometowns" by longstanding custom are usually the places from which players came to USC, and are located in California unless noted. Parenthetical notations contain a letterwinner's high school, and junior or senior college, attended before USC, where known, and are in the state of the letterman's hometown, unless noted. This list was expanded by Michael J. Glenn (with input from Gary Wright). USC appreciates their invaluable efforts.
